

# The Loving Classroom Package

Loving Classroom is an international schools program to help students cultivate a lifetime of good relationships: at home, with friends, in school, at the future workplace, within communities and eventually between cultures and nations. The program is based on training teachers to facilitate and develop 8 lessons in their classroom: **Respect, Compassion, Listening, Kindness, Gratitude, Love, Care, Friendship.** In addition, by accentuating the positive, there's a natural reduction in the negative: bullying, anger, disruption, selfishness and apathy. Academic studies will also improve when students are more complete social beings.
